Michael Council

Founder/Managing Director

EC TECHNOLOGY
CONSULTING SERVICES

Michael Council brings over two decades of expertise as a cybersecurity program management practitioner. He excels at implementing cybersecurity and technology solutions across federal, state, public and private sectors. Michael specializes in cybersecurity Assessments and Governance Risk and Compliance. He has implemented DIACAP and Risk Management Framework accreditations for federal clients using NIST 800-53 and NIST 800-171 Controls. Additionally, he has been in-tune and researching DoD's CMMC evolution since version 1.o. He recently completed the CMMA Certified Professional bootcamp and is scheduled to take the exam soon. He has knowledge and expertise implementing NIST 800-171 controls. He is an expert that has advised organizations on updating, Enterprise Mission Assurance Support Service (eMASS), System Security Pans (SSP), and Plan of Actions and Milestones (POAM) documentation.

In addition to his professional accomplishments, Michael holds a Bachelor of Science Information Technology Management (BSITM) and Master of Science Cybersecurity (MSCS) degrees. He holds the following prestigious cybersecurity certifications: Certified Information Security Manager (CISM), Certified Information Security Professional (CISSP), Project Management Professional (PMP), and Certified Ethical Hacker (CEH).

Michael is the Founder/Managing Director of EC Technology Consulting Services LLC. EC Technology provides every client with white-glove service. We integrate into you organization and embrace your business strategy. Finally, we take your strategy and implement a cybersecurity solution that provides value and allows you to grow revenue in a secure environment.

Michael is an experienced and sought after speaker and technology mentor. He has mentored disadvantaged youth and emerging security professionals. An expert speaker and presenter, Michael has honed his skills presenting to Executives, General Officers, and elected officials. He has appeared on various Podcasts, Webinars, and Retreats.
